

## Bringing National Supply Chain Efficiency to Ontario Health Teams

Mohawk Medbuy is a national, not-for-profit shared services organization that conducts large-scale procurements for the medical/surgical and pharmaceutical products used by hundreds of Canadian hospitals. That buying power allows us to negotiate significant savings for acute care providers.

With the advent of Ontario Health Teams (OHT), we developed OHTconnect™ – a comprehensive program to support all members of these important alliances with those same product savings, along with efficient distribution and strong customer service.
