

April 23, 2025

As communicated at our information session last week, we have now published our [OWFR OHT approved scoring matrix](#) that will be used by our proposal review panel(s) to identify the 3 proposals (1 per priority FSA) that we will endorse and submit to Ontario Health. Please take a look and reach out if you have questions.

A compiled [Questions and Answers](#) list is now available for you to review (and a link to the Ministry of Health FAQ is also included within this document). Thank you to those who have reached out with these questions – we will continue to update as new questions come in or as new responses are provided. We'd like to also recognize and thank our Ontario Health East colleagues for their support both contributing responses and escalating questions to the provincial team.
